Subject: Amended Closure Plan Approval, Clean Closure by In Situ Treatment and Risk Assessment, Former Aerosol Systems, Inc.  
OHD050387802

Dear Mr. West:

On April 12, 2018 (with revisions received on June 6, 2018), BJAMM on behalf of 9150 Group, LLC submitted to Ohio Environmental Protection Agency ("Ohio EPA") an amended closure plan for the former Aerosol Systems, Inc. facility located at 9150 Valley View Road, Macedonia, Ohio. The submitted document amends the August 15, 2014 approved closure plan which was submitted to demonstrate that 9150 Group, LLC’s (former Aerosol Systems, Inc.) proposal for closure complies with the substantive requirements of Ohio Administrative Code ("OAC") rules 3745-55-11 and 3745-55-12.

The June 6, 2018 Amended Closure Plan includes the following changes: six monitoring wells were removed from the semi-annual sampling for volatile organic chemicals, one monitoring well was removed as a point of compliance well, the Closure Schedule was updated, reference to the May 2010 Closure Certification Report was updated to include the RCRA Certification Addendum dated December 2010 with the response letter dated December 3, 2010, and detailed wording pertaining to the Environmental Covenant ("EC") was provided to assure the final EC contains the appropriate protective language, and clarification was provided concerning the decommissioning of environmental installations.

The owner or operator and the public were given the opportunity to submit written comments regarding the amended closure plan in accordance with the hazardous waste rule requirements. No public comments were received by Ohio EPA.

Based upon review of 9150 Group, LLC’s submittal and subsequent revisions emailed to Ohio EPA Northeast District Office on June 6, 2018, I conclude that the amended closure plan for the hazardous waste facility at 9150 Valley View Road, Macedonia Ohio, meets the performance standard contained in OAC rule 3745-55-11, and complies with the pertinent parts of OAC rule 3745-55-12.
The amended closure plan submitted to Ohio EPA on April 12, 2018 and as revised on June 6, 2018, is hereby approved.

Compliance with the approved amended closure plan is expected. Ohio EPA will monitor such compliance. Ohio EPA expressly reserves the right to take action, pursuant to chapters 3734. and 6111. of the Ohio Revised Code, and other applicable law, to enforce such compliance and to seek appropriate remedies in the event of noncompliance with the provisions and modifications of this approved plan. Please be advised that approval of this amended closure plan does not release 9150 Group, LLC from any responsibilities regarding corrective action for all releases of hazardous waste or constituents from any waste management unit, regardless of the time at which waste was placed in the unit.

You are hereby notified that this action of the director is final and may be appealed to the Environmental Review Appeals Commission pursuant to Section 3745.04 of the Ohio Revised Code. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the Commission within 30 days after notice of the director's action. The appeal must be accompanied by a filing fee of $70.00 (made payable to "Ohio Treasurer of State") which the Commission, in its discretion, may reduce if by affidavit you demonstrate that payment of the full amount of the fee would cause extreme hardship. Notice of the filing of the appeal shall be filed with the director within three days of filing with the Commission. Ohio EPA requests that a copy of the appeal be served upon the Ohio Attorney General’s Office, Environmental Enforcement Section. An appeal may be filed with the Environmental Review Appeals Commission at the following address:

Environmental Review Appeals Commission
30 E. Broad Street, 4th Floor
Columbus, Ohio 43215

When closure is completed, OAC rule 3745-55-15 requires the owner or operator of a facility to submit to the director of Ohio EPA, certification by the owner or operator and a qualified professional engineer, that the facility has been closed in accordance with the approved amended closure plan. The certification by the owner or operator shall include the statement found in OAC rule 3745-50-42(D). These certifications should be submitted to:

Ohio Environmental Protection Agency
Division of Environmental Response and Revitalization
P.O. Box 1049
Columbus, Ohio 43216-1049
Attn: Erik Hagen, ERAS

A copy should also be sent to:

Ohio Environmental Protection Agency
Division of Environmental Response and Revitalization
If you have any questions about implementing this amended closure plan, contact Pam Korenewych at (330) 963-1237.

Sincerely,

Craig W. Butler
Director
