IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent owns and operates a facility located at 3431 Yankee Road, Middletown (Facility). Respondent is a Pennsylvania corporation, licensed to do business in Ohio since August 28, 1995.

2. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

3. Respondent notified Ohio EPA of its hazardous waste activities and was issued generator identification number OHD 101 486 116.

4. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a large quantity generator of hazardous waste.

5. On April 10 and 11, 2007, Ohio EPA conducted compliance evaluation inspections at the Facility. As a result of these inspections, Ohio EPA determined that Respondent had, inter alia:
   a. Unlawfully stored hazardous waste without a permit for greater than 90 days in the hazardous waste accumulation area, in violation of ORC § 3734.02(E) and (F);
   b. Failed to submit annual hazardous waste reports for 2004 and 2006, in violation of OAC rule 3745-52-41(A);
   c. Failed to list the October 19, 2005, shipment of hazardous lab wastes on a uniform hazardous waste manifest, in violation of OAC rule 3745-52-20(A);
   d. Failed to accurately complete items one through twenty on some hazardous waste manifests, in violation of OAC rule 3745-52-20(A);
   e. Failed to retain copies of hazardous waste manifests for at least three years, in violation of OAC rule 3745-52-40;
   f. Failed to have a hazardous waste personnel training program directed by a person trained in hazardous waste management procedures and failed to have a personnel training program that teaches facility personnel hazardous waste management procedures, in violation of OAC rule 3745-65-16;
g. Failed to file exception reports for a 2005 shipment of corrosive hazardous wastes and for the October 19, 2006, shipment of hazardous lab wastes, in violation of OAC rule 3745-52-42(A);

h. Failed to have a complete contingency plan and provide copies to emergency authorities, in violation of OAC rules 3745-85-52, 53 and 54;

i. Failed to close toilets of hazardous waste in the bulk loading area and in the surfactant manufacturing process area, in violation of OAC rule 3745-66-73(A);

j. Failed to date containers of corrosive waste with the accumulation start date and to label them as "Hazardous Waste," in violation of OAC rule 3745-52-34(A)(2) and (3);

k. Failed to complete weekly inspections for the hazardous waste accumulation areas, in violation of OAC rule 3745-66-74;

l. Failed to label "Used Oil" on several containers storing used oil, in violation of OAC rule 3745-279-22(O);

m. Failed to clean up a release of used oil in the vicinity of a 12,000-gallon used oil tank, in violation of OAC rule 3745-279-22(O);

n. Failed to evaluate waste fluorescent lamps to determine if they are hazardous waste, in violation of OAC rule 3745-52-11;

o. Failed to comply with land disposal requirements, in violation of OAC rule 3745-270-07; and

p. Failed to produce documentation to show the EPA waste numbers associated with the corrosive waste and some lab waste, in violation of OAC rule 3745-270-09(A).

6. By letter dated May 4, 2007, Ohio EPA notified Respondent of the violations referenced in Finding No. 5, of these Orders. In this letter, Ohio EPA also notified Respondent that due to the unlawful storage of hazardous waste, Respondent was subject to all applicable general facility standards found in OAC chapters 3745-54 and 3745-55, including but not limited to, closure of the unpermitted hazardous waste storage unit in accordance with OAC rules 3745-
55-11 through 3745-55-20 and the financial assurance requirements in OAC rules 3745-55-42 through 3745-55-51.

7. On June 11, 2007, Ohio EPA conducted a follow-up inspection at the Facility. During this inspection, Respondent notified Ohio EPA that the May 4, 2007 letter was not received by Respondent. Ohio EPA provided Respondent with a copy of the May 4, 2007 letter during this follow-up inspection.

10. On July 24, 2007, Ohio EPA conducted a return to compliance inspection at the Facility.

11. By letter dated July 30, 2007, Ohio EPA notified Respondent that Respondent had abated the violations listed in Finding Nos. 5.b., 5.c., 5.d., 5.e., 5.f., 5.g., 5.i., 5.j., 5.k., 5.l., 5.m., 5.n., 5.o. and 5.p. of these Orders.

13. By letter dated August 16, 2007, Ohio EPA notified Respondent that Respondent had abated the violation listed in Finding No. 5.h. of these Orders.

14. Because no releases of hazardous waste were observed and based upon Respondent's obligation to perform generator closure of the less than 90 day hazardous waste storage area, which is currently being used and is the same area of the Facility used to store hazardous waste without a permit, the Director has determined that no additional action is required of Respondent regarding the ORC § 3734.02(E) and (F) and it is unnecessary to reserve closure for the hazardous waste storage area.

V. ORDERS
