Respondent

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director’s Final Findings and Orders (Orders) are issued to Kasper Enterprises, Inc. dba Harmon Sign Company (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility shall in any way alter Respondent’s obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734, and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent operates a facility located at 7844 West Central Avenue, in
Toledo, Lucas County (Facility). At the Facility, Respondent manufactures and services neon, electric, illuminated and painted signs. Respondent is authorized to do business in Ohio.

2. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

3. Respondent was issued generator identification number OHIRR000120637 on April 25, 2005.

4. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. The hazardous wastes generated by Respondent at the Facility include spent solvents and paint filters (D001, D007, D035 and F003/F005) from paint cleaning operations.

5. On March 29, 2005, Ohio EPA conducted an inspection at the Facility. During this inspection Ohio EPA discovered that Respondent had been placing spent paint filters in the solid waste dumpster without properly evaluating to determine if they were a hazardous waste, in violation of OAC rule 3745-52-11. During this inspection, Ohio EPA informed Respondent to cease management of the spent paint filters as non-hazardous waste until a proper waste evaluation was completed.

6. On April 20, 2005, Ohio EPA notified Respondent of the violation referenced in Finding No. 5. of these Orders.

7. On May 24, 2005, Respondent conducted a sampling event in order to properly evaluate the spent paint filters referenced in Finding No. 5. of these Orders. On this date, Respondent informed Ohio EPA that the paint spray guns are cleaned out by running a lacquer thinner through the gun and spraying the spent solvent directly onto the paint filters located inside the paint booth. Ohio EPA informed Respondent that this practice would make the paint booth filters a F003/F005 listed hazardous waste and that the filters would need to be managed as a hazardous waste. Respondent also informed Ohio EPA that filters had been changed out on May 20, 2005 and placed into the solid waste dumpster.

8. By letter dated June 13, 2005, Respondent faxed the analytical results for the spent paint filters to Ohio EPA. The analytical results showed levels of chromium at 19.6 mg/l demonstrating that the spent paint filters were characteristic hazardous waste (D007).

9. By letter dated June 24, 2005, Ohio EPA notified Respondent that based upon the analytical results and waste management practices at the Facility, Respondent had unlawfully disposed of hazardous waste, in violation of ORC § 3734.02(E) and (F). In this same letter, Ohio EPA informed Respondent, based upon receipt of the analytical data for the spent paint filters, the violation referenced in Finding No. 5 of these Orders had been abated.

10. The Director has determined that Respondent did not unlawfully dispose of hazardous waste as referenced in Finding No. 9 of these Orders but has instead caused the transportation of hazardous waste to facility that does not hold a hazardous waste permit, in violation of ORC § 3734.02(F).

11. On October 3, 2005, Ohio EPA conducted a follow-up inspection at the Facility. As a result of this inspection, Ohio EPA determined that the Respondent had, inter alia:

a. Failed to properly date containers of hazardous waste, in violation of OAC rule 3745-52-34(A)(2);

b. Failed to conduct inspections of hazardous waste accumulation areas and emergency equipment, in violation of OAC rule 3745-66-74 and OAC rule 3745-65-33; and

c. Failed to post emergency information next to the telephone, in violation of OAC rule 3734-52-34(D)(5).

12. By letter dated January 6, 2006 and e-mail dated January 18, 2006, Respondent submitted to Ohio EPA documentation demonstrating that the violations referenced in Finding Nos. 10. and 11. of these Orders had been abated.

V. ORDERS
