APR 20, 2006
1. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

2. Respondent manufactures spring wire and is located at 26300 Miles Road, Bedford Heights, Cuyahoga County (Facility).

3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a large quantity generator of hazardous waste and has been assigned generator identification number OHD 042 708 586. The hazardous waste generated by Respondent at the Facility includes lead-contaminated dross and pea coal waste (D008) from its wire-coating process.

4. On May 6, 2003, Ohio EPA conducted a complaint investigation at the Facility to determine the validity of claims that pea coal hazardous waste had been disposed of on the ground at the Facility from approximately 1980 until 1996. During the complaint investigation, Ohio EPA observed large, solidified pieces of waste material on the ground at the Facility, as specified by the complainant, that appeared unnatural in origin.

5. By letter dated June 5, 2003, Ohio EPA notified Respondent that the waste material referenced in Finding No. 4 of these Orders appeared to be releases of hazardous waste lead contaminated dross and pea coal, and requested that Respondent develop and submit a Sampling and Analysis Plan (SAP) to determine the nature and extent of contamination, if any, at the Facility.

7. By letter dated August 26, 2003, Ohio EPA provided Respondent with comments on the SAP referenced in Finding No. 6 of these Orders.

8. By letter dated September 19, 2003, Respondent responded to Ohio EPA's August 26, 2003 letter by submitting a revised SAP to Ohio EPA for review and approval.

9. By letter dated October 16, 2003, Ohio EPA provided Respondent with comments on the revised SAP referenced in Finding No. 8 of these Orders.

12. By letter dated December 12, 2003, Respondent provided responses to Ohio EPA's November 12, 2003 letter, referenced in Finding No. 11 of these Orders.

13. On February 19 and 20, 2004, Ohio EPA observed the collection of soil samples at the Facility by Respondent.

14. By letter dated March 24, 2004, Respondent submitted a document entitled, "Site Map and Soil Boring Results" which summarized laboratory results from soil samples collected on February 19 and 20, 2004 at the Facility. The results indicated that lead contamination was found in the soils at the Facility.

15. By letter dated April 14, 2004, Respondent submitted a Phase II SAP which incorporated Ohio EPA's comments on the SAP and "Site Map and Soil Boring Results" document, referenced in Finding Nos. 6 and 14 of these Orders, respectively, and also included a proposed remediation plan to address the lead contamination in the soils at the Facility for Ohio EPA review and approval.

16. Based upon the information contained in the "Site Map and Soil Boring Results" document, referenced in Finding No. 14 of these Orders, Ohio EPA notified Respondent, by letter dated May 6, 2004, of its determination that Respondent had disposed of hazardous waste without a permit at the Facility, in violation of ORC § 3734.02(E) and (F).

17. By letter dated June 4, 2004, Ohio EPA provided comments on Respondent's Phase II SAP, referenced in Finding No. 15 of these Orders.

18. By letter dated June 22, 2004, Respondent provided responses to Ohio EPA's letters dated May 6 and June 4, 2004, referenced in Finding Nos. 16 and 17, respectively, of these Orders.

20. In correspondence dated September 24, 2004, Respondent submitted a revised Phase II SAP, which incorporated Ohio EPA's comments on the Phase II SAP referenced in Finding No. 17 of these Orders, for Ohio EPA review and approval.

21. By letter dated October 15, 2004, Ohio EPA approved, with modifications, Respondent's revised Phase II SAP, referenced in Finding No. 20 of these Orders.

22. On November 16, 2004, Respondent notified Republic Waste Services of Ohio II, LLC that Republic Waste Services of Ohio II, LLC had transported from Respondent's Facility a roll-off box that may have contained a lead-contaminated block to the Countywide Landfill in Canton, Ohio.
23. On November 17, 2004, Ohio EPA was notified of the aforementioned incident referenced in Finding No. 22 of these Orders.

24. By letter dated November 22, 2004, Ohio EPA notified Respondent of its determination that Respondent had caused to be transported a block of solidified, lead-contaminated hazardous waste (D008) to a solid waste facility not operating under a hazardous waste permit issued in accordance with ORC Chapter 3734., in violation of ORC § 3734.02(F).

25. On December 15, 16 and 17, 2004, Ohio EPA observed the collection of additional soil samples, conducted pursuant to the approved revised Phase II SAP referenced in Finding No. 21 of these Orders, at the Facility by Respondent.

26. In a letter from Respondent dated January 19, 2005 and a letter from Republic Services of Ohio II, LLC dated May 31, 2005, it was explained that Respondent had taken significant steps and had expended significant financial resources to locate and remove the lead-contaminated block but, after a ten day search and the excavation of approximately 7,300 tons of waste, the block could not be located.

27. In correspondence dated March 4, 2005, Respondent submitted to Ohio EPA the results of the sampling performed under the approved revised Phase II SAP referenced in Finding No. 21 of these Orders.

28. In correspondence dated May 2, 2005, Respondent submitted a Remediation Plan to Ohio EPA for review and approval.

31. By letter dated November 8, 2005, Ohio EPA approved, with modifications, Respondent’s Remediation Plan Revision 001, referenced in Finding No. 30 of these Orders. In addition to the required modifications, Ohio EPA also recommended certain changes to the portion of the Remediation Plan Revision 001 that described Respondent’s plan for analysis of soil samples in the field and for confirmation testing of the results of such analysis.

32. In correspondence dated December 19, 2005, Respondent, through its environmental consultant, acknowledged Ohio EPA’s modifications to the approved Remediation Plan Revision 001, as referenced in Finding No. 31 of these Orders.
33. In correspondence dated January 12, 2006, Respondent submitted to Ohio EPA Remediation Plan Revision 002, which incorporated Ohio EPA's modifications to the approved Remediation Plan Revision 001, referenced in Finding No. 31 of these Orders.

34. In correspondence dated March 21, 2006, Respondent submitted a modification request, for Ohio EPA review and approval, to Remediation Plan Revision 002, referenced in Finding No. 33 of these Orders.
