Re: Director's Final Findings & Orders Exemption Pursuant to R.C. 3734.02(G) Ohio Organization for Recycling and Reuse Heritage Environmental Services, LLC City of Akron

Jeffrey E. Wihite, Board Chair Ohio Organization for Recycling and Reuse 1085 Sweitzer Road Akron, Ohio 44301

Christopher L. Maheu, Vice-President Heritage Environmental Services, LLC 5451 Enterprise Boulevard Toledo, Ohio 43612

John W. Valle, Deputy Service Director City of Akron 166 South High Street Akron, Ohio 44308

Dear Sirs:

Here are the Director's Final Findings and Orders (Orders) exempting the Ohio Organization for Recycling and Reuse, Heritage Environmental Services, LLC and the City of Akron from the requirements contained in Ohio Administrative Code (OAC) Chapters 3745-54, 3745-55 and 3745-270 and the hazardous waste permitting requirements in Ohio Revised Code 3734 and OAC Chapter 3745-50. These Orders are effective today.

Ted Strickland, Governor
Lee Flaher, Lieutenant Governor
Chris Korteiski, Director

Ohio EPA is an Equal Opportunity

Respondents

PREAMBLE

It is hereby agreed by and among the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to the Ohio
Organization for Recycling and Reuse (Respondent OORR), City of Akron (Respondent
Akron) and Heritage Environmental Services, LLC (Respondent Heritage) pursuant to the
authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA)
under Ohio Revised Code (ORC) §§ 3734.02(G), 3734.13, 3734.14 and 3745.01.
II. PARTIES BOUND

These Orders shall apply to and be binding upon the Respondents and successors in interest liable under Ohio law. No change in ownership of the Respondents, or of the Facility, shall in any way alter Respondents’ obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734, and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent OORR is an Ohio not-for-profit corporation incorporated in the State of Ohio on November 13, 2000.

2. Respondent Heritage is a foreign limited liability company registered to do business in the State of Ohio on August 7, 1998.

3. Respondent Akron is a municipal corporation chartered in the State of Ohio and located in Summit County.

4. Respondent OORR, Respondent Heritage and Respondent Akron are each a “person” as defined in ORC § 3734.01(G) and OAC rule 3745-50-10(A).

5. On March 29, 2005, the Director issued Final Findings and Orders ("March 2005 Orders") to, and with the consent of, Respondents, regarding the operation of, on a pilot basis, a small business hazardous waste recycling facility located at 1085 Sweitzer Road, Akron, Summit County, Ohio (Facility). This Facility was in active operation from October 25, 2005, until the exemption expired on March 29, 2007. Respondent OORR and Respondent Heritage operated the Facility, which sits upon real property owned by Respondent Akron.

6. Respondent OORR proposes to resume operations, continuing on a pilot basis, at the Facility, and has requested that an extension to the original exemption be granted with certain modifications.

7. At the Facility, Respondent OORR and Respondent Heritage will accept hazardous wastes generated by conditionally exempt small quantity generators. Respondent OORR and Respondent Heritage will sort, consolidate and then send these hazardous wastes off site for recycling, reuse, treatment or disposal. By conducting
such activities, the Facility would be a “hazardous waste facility,” as defined in OAC rule 3745-50-10 and Respondent OORR, Respondent Heritage and Respondent Akron would be required to obtain a hazardous waste permit, as described in OAC Chapters 3745-50, 3745-54, 3745-55 and 3745-270, for the hazardous waste storage area.

8. At the Facility, Respondent OORR and Respondent Heritage will accept, aggregate and store used oil from used oil generators who bring used oil to the Facility in shipments of no more than fifty-five gallons. By conducting such activities, the Facility would be a “used oil collection center,” as defined in OAC rule 3745-279-01.

9. At the Facility, Respondent OORR and Respondent Heritage will receive universal waste from other universal waste handlers, accumulate universal waste, and send universal waste to another universal waste handler, to a destination facility, or to a foreign destination. By conducting such activities, the Facility would be a “universal waste handler,” as defined in OAC rule 3745-273-09.

10. Prior to issuance of the March 2005 Orders, Respondents submitted to Ohio EPA, an application for an exemption pursuant to OAC rule 3745-50-31 from the requirement to obtain a permit for the hazardous waste storage area at the Facility (Application). The Application included, inter alia, an explanation of how Ohio’s hazardous waste permitting requirements for the storage area will be addressed.

12. As part of its 2004 annual updates submitted pursuant to ORC §§ 3734.41 through 3734.47, for the Von Roll America, Inc., facility located in East Liverpool, Ohio, Respondent Heritage submitted a five-year summary of its history of compliance with Chapters 3704., 3734., and 6111. of the Revised Code and all rules and standards adopted under them. Respondent Heritage also submitted a five-year summary of its history of compliance with similar laws and rules of other states. Ohio EPA has reviewed the Attorney General’s Office background investigative report for Heritage Environmental Services. No disqualifying crimes were identified for any of the key employees listed in the annual update.

13. Modification of the Application is necessary to address changes required by Respondent Akron in a building permit issued July 6, 2005, in the hazardous waste receipt and storage protocol at the Facility described in the Application contained in the March 2005 Orders, and also to allow longer storage of non-hazardous wastes so that recycling will be more feasible. On October 5, 2005, Respondent OORR submitted revisions to the Application to address concerns raised by Respondent
Akron. On February 24, 2006, Respondent OORR submitted additional revisions to the Application (Revised Application) to address longer storage of non-hazardous wastes.

14. Ohio EPA has reviewed Respondent OORR's Revised Application originally submitted on October 5, 2005, and last updated on July 20, 2006, and has found it to be complete and technically adequate. In addition, because the project has not operated for a full two year trial period, the Director has determined that the extension of the earlier exemption is appropriate.

15. The Director has determined that if Respondents comply with the Revised Application and these Orders, it is unlikely that the public health or safety or the environment will be adversely affected. These Orders are consistent with and equivalent to the rules promulgated under the Resource Conservation and Recovery Act of 1976, 90 Stat. 2806, 42 U.S.C. §§ 6921 et seq., as amended, except as otherwise provided by ORC Chapter 3734.

16. Pursuant to ORC section 3734.02 (G) and OAC rule 3745-50-31, the Director may by order exempt any person generating, storing, treating, disposing of or transporting hazardous waste in such quantities or under such circumstances that, in the determination of the Director, are unlikely to adversely affect the public health or safety or the environment from any requirement to obtain a permit or license, comply with the manifest system or comply with other requirements of ORC chapter 3734.

17. Pursuant to ORC § 3734.14, when necessary or desirable to facilitate the exchange and use of hazardous waste, the Director of Ohio EPA may order exemptions from the requirements of ORC Chapter 3734. in accordance with ORC § 3734.02(G).

V. ORDERS

1. Respondent Akron, Respondent Heritage and Respondent OORR are hereby exempted from the hazardous waste permitting requirements in ORC §§ 3734.05(C) and 3734.41 through 3734.47 and OAC Chapters 3745-50, 3745-54, 3745-55 and 3745-270 for the hazardous waste storage area at the Facility.

2. Respondents shall implement all required tasks in the manner and time frames described in the Revised Application, attached to and incorporated herein, and shall comply with the standards, terms and conditions described in the Revised Application in the course of operating the Facility.

3. Respondent OORR and Respondent Heritage shall comply with the applicable portions of OAC Chapters 3745-273 and 3745-279.
Ohio Organization for Recycling and Reuse
Director's Final Findings and Orders
Page 5

4. Within 150 days after the effective date of these Orders and every 120 days thereafter, Respondents shall submit a report to Ohio EPA that details the following information. The reporting period shall consist of 120 days. The first reporting period will begin on the effective date of the Orders:

a. The number of first-time customers who brought waste to the Facility during the reporting period and the number of times they used the Facility during the reporting period;

b. The number of returning customers who brought waste to the Facility during the reporting period and number of times they used the Facility during the reporting period;

c. A description (using the description from the Revised Application of the types of acceptable wastes and the U.S. EPA hazardous waste number, if applicable) and the quantity of each type of waste received at the Facility during the reporting period;

d. The disposition of wastes received during the reporting period;

e. The name and U.S. EPA identification number of each transporter used during the reporting period for shipments off-site;

f. A description, U.S. EPA hazardous waste number, and quantity of each hazardous waste shipped off-site to a treatment, storage, or disposal facility. This information must be listed by U.S. EPA identification number of each such off-site facility to which waste was shipped.

5. Within 60 days following the termination of the exemption, the Respondents shall submit a final report that summarizes the information requirements from Order No. 5. and would include the total amount of waste accepted, sent off-site for recycling, disposed of off-site, and the total amount of various categories of waste accepted, how long waste was stored at the facility before being transported off-site, busiest receipt times, number of spills, amount of outreach done, number of vehicles turned away, overall assessment by Respondent OORR of the project, including an assessment of its success, and any complications which arose.

6. The Director may revoke the exemption granted in Order No. 1. of these Orders for any reason, including but not limited to, a determination that Respondents’ activities at the Facility adversely affect public health or safety or the environment, and/or activities are not being conducted in accordance with these Orders and/or the Application.
7. The exemptions described in Order No. 1, above, shall terminate no later than November 1, 2007.

8. The issuance of these Orders by the Director does not release Respondents from any liability they may have incurred for any violations which may have occurred at the Facility prior to the effective date of these Orders. The issuance of these Orders does not release Respondents from any obligation they have to comply with the State of Ohio’s environmental laws, except as otherwise specifically provided herein.

9. These Orders do not exempt Respondents from any other local, state, or federal laws or regulations which are otherwise applicable.

10. If any Party to these Orders identifies a need for Respondents to amend the Revised Application, the Party shall provide written notification of such need and the reasons therefore to the other Parties. Within thirty (30) days after the date of such written notification, Respondents shall submit an amended Revised Application to Ohio EPA for review and approval. Respondents shall address in a timely manner all comments provided by Ohio EPA on the proposed amendments. Ohio EPA will notify Respondents in writing of its approval or disapproval of the amended Revised Application. Prior to any disapproval of a proposed amendment, Ohio EPA will consult with Respondents regarding the proposed amendment. The amended Revised Application shall be enforceable in the same manner as the approved Revised Application attached to these Orders.

11. The issuance of these Orders by the Director does not release Respondents from any liability they may have incurred for any violations which may have occurred at the Facility prior to the effective date of these Orders.

VI. OTHER CLAIMS

Nothing in these Orders shall constitute or be construed as a release from any claim, cause of action or demand in law or equity against any person, firm, partnership or corporation, not a party to these Orders, for any liability arising from, or related to, the operation of Respondents' Facility.

VII. OTHER APPLICABLE LAWS

All actions required to be taken pursuant to these Orders shall be undertaken in
accordance with the requirements of all applicable local, state and federal laws and regulations. These Orders do not waive or compromise the applicability and enforcement of any other statutes or regulations applicable to Respondents.

VIII. TERMINATION

Respondents’ obligations under these Orders shall terminate when Respondents certify in writing and demonstrate to the satisfaction of Ohio EPA that Respondents have performed all obligations under these Orders and Ohio EPA’s Division of Hazardous Waste Management acknowledges, in writing, the termination of these Orders. If Ohio EPA does not agree that all obligations have been performed, then Ohio EPA will notify Respondents of the obligations that have not been performed, in which case Respondents shall have an opportunity to address any such deficiencies and seek termination as described above.

The certification shall contain the following attestation: “I certify that the information contained in or accompanying this certification is true, accurate and complete.”

This certification shall be submitted by Respondents to Ohio EPA and shall be signed by a responsible official of each Respondent. For purposes of these Orders, a responsible official is a person [e.g., corporate officer] who is in charge of a principal business or governmental function of Respondent.

IX. NOTICE

All documents required to be submitted by Respondents pursuant to these Orders shall be addressed to:

Ohio Environmental Protection Agency  
Northeast District Office  
Manager, Division of Hazardous Waste Management  
2110 East Aurora Road  
Twinsburg, Ohio 44087

and Ohio EPA Central Office at the following address:

For mailings, use the post office box number:

Ohio Environmental Protection Agency  
P.O. Box 1049  
Columbus, Ohio 43216-1049  
Attn: Manager, Engineering and Risk Assessment Section
For deliveries to the building:

Christopher Korleski, Director
Ohio Environmental Protection Agency
Lazarus Government Center
Division of Hazardous Waste Management
50 West Town Street, Suite 700
Columbus, Ohio 43215
Attn: Manager, Engineering and Risk Assessment Section

or to such persons and addresses as may hereafter be otherwise specified in writing by Ohio EPA.

IX. RESERVATION OF RIGHTS

Ohio EPA and Respondents each reserve all rights, privileges and causes of action, except as specifically waived in Section XI. of these Orders.

XI. WAIVER

Respondents hereby waive the right to appeal the issuance, terms and conditions, and service of these Orders, and Respondents hereby waive any and all rights Respondents may have to seek administrative or judicial review of these Orders either in law or equity.

Notwithstanding the preceding, Ohio EPA and Respondents agree that if these Orders are appealed by any other party to the Environmental Review Appeals Commission, or any court, Respondents retains the right to intervene and participate in such appeal. In such an event, Respondents shall continue to comply with these Orders notwithstanding such appeal and intervention unless these Orders are stayed, vacated, or modified.

XII. EFFECTIVE DATE

The effective date of these Orders is the date these Orders are entered into the Ohio EPA Director's journal.

XIII. SIGNATORY AUTHORITY

Each undersigned representative of a party to these Orders certifies that he or she is fully authorized to enter into these Orders and to legally bind such party to these Orders.
