PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Russell Products Co., Inc. (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of the Respondent or of the Facility shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734, and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent owns and operates an industrial coating operation at 12128 Sprecher Ave., in Cleveland, Cuyahoga County (Facility). Respondent is an Ohio corporation, licensed to do business on August 13, 1973.
2. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

3. Respondent notified Ohio EPA of its hazardous waste activities and was issued generator identification number OHD066039801.

4. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a small quantity generator of hazardous waste. The hazardous wastes generated by Respondent at the Facility include cleaning and coating line sludges (D002 and D007) and spent paint related wastes (D001, D039, F002, F003 and F005).

5. On March 10, March 23 and April 13, 2006, Ohio EPA conducted compliance evaluation inspections at the Facility. As a result of these inspections, Ohio EPA determined that Respondent had, inter alia:

   a. Stored hazardous waste in quantities exceeding 6000kg and for greater than 180 days without a permit, in violation of ORC § 3734.02 (E) and (F);

   b. Failed to evaluate waste to determine if the waste was hazardous waste, in violation of OAC rule 3745-52-11;

   c. Failed to store hazardous waste in containers that were closed, in violation of OAC rule 3745-66-73;

   d. Failed to maintain adequate aisle space, in violation of OAC rule 3745-65-35;

   e. Failed to label and date containers of hazardous waste, in violation of OAC rules 3745-52-34 (A)(2) and (3);

   f. Failed to conduct inspections of emergency equipment and weekly inspections of container accumulation areas, in violation of OAC rules 3745-65-33 and 3745-66-74;

   g. Failed to have the required spill equipment available for the hazardous waste accumulation area, in violation of OAC rule 3745-65-32(B);

   h. Failed to list the necessary emergency information by the telephone, in violation of OAC rule 3745-52-34(D)(5)(b);
I. Failed to properly manage universal waste lamps in containers or packages, in violation of OAC rule 3745-273-13(D)(1);

j. Failed to properly label universal waste lamps, in violation of OAC rule 3745-273-14(E);

k. Failed to have a system for demonstrating how long universal waste lamps had been on-site, in violation of OAC rule 3745-273-15(C);

l. Failed to inform employees on the proper handling and emergency procedures associated with universal waste lamps, in violation of OAC rule 3745-273-16;

m. Failed to comply with land disposal restriction (LDR) requirements, in violation of OAC rule 3745-270-07;

n. Failed to submit annual hazardous waste reports, in violation of OAC rule 3745-52-41; and

o. Failed to produce a copy of a hazardous waste manifest signed by the designated facility, in violation of OAC rule 3745-52-40(A).

6. By letter dated April 26, 2006, Ohio EPA notified Respondent of the violations referenced in Finding No. 5. of these Orders. In this letter, Ohio EPA also notified Respondent that due to the unlawful storage of hazardous waste, Respondent was subject to all applicable general facility standards found in OAC Chapters 3745-54 and 3745-55. In addition, Ohio EPA notified Respondent that the violations referenced in Finding Nos. 5.b., 5.c., 5.d., 5.e., 5.f., 5.g., 5.i., 5.j. and 5.k. had been abated.

8. By letter dated June 27, 2006, Ohio EPA notified Respondent that Respondent had abated the violations referenced in Finding Nos. 5.l., 5.m., 5.n. and 5.o. of these Orders.

10. By letter dated August 22, 2006, Ohio EPA notified Respondent that Respondent had abated the violation referenced in Finding No. 5.h. of these Orders.
11. During the inspections referenced in Finding No. 5. of these Orders, Ohio EPA identified that Respondent had generated six containers (five 55-gallon drums and one super-sack) of hazardous waste in the month of November, 2005 thus operating as an episodic large quantity generator of hazardous waste. Respondent did not comply with the large quantity generator regulations for this month and the subsequent months these wastes remained on-site, in violation of OAC rule 3745-52-34(A). These hazardous wastes were shipped off-site on March 17, 2006. In addition, Respondent stored these containers of hazardous waste on-site for greater than 90 days, in violation of ORC § 3734.02 (E) and (F).

12. Because Ohio EPA did not observe any releases of hazardous waste at the time of the inspections referenced in Finding No. 5. of these Orders and Respondent is still using the hazardous waste accumulation area, the Director has determined that closure of the unpermitted storage area is not required at this time. Therefore, no further action is required at this time to abate the ORC § 3734.02 (E) and (F) violation referenced in Finding Nos. 5.a. and 11. of these Orders. In addition, no further action is required to abate the OAC rule 3745-52-34(A) violation referenced in Finding No. 11. of these Orders because Respondent is now operating as a small quantity generator. Should Respondent generate over 1000kg of hazardous waste or 1 kg of acute hazardous waste in a calendar month then Respondent shall comply with the LQG requirements for generators of hazardous waste.

13. Based upon a review of financial information submitted by Respondent, Ohio EPA determined that Respondent does not possess the financial ability to pay the entire civil penalty settlement proposed in the Director's letter of March 23, 2007.

V. ORDERS

Respondent shall achieve compliance with Chapter 3734. of the ORC and the regulations promulgated thereunder according to the following compliance schedule:

Box 1049, Columbus, Ohio 43216-1049, together with a letter identifying Respondent. A copy of this check shall be submitted in accordance with Section X. of these Orders, and an additional copy of this check shall be sent to James A. Orlemann, Assistant Chief, SIP Development and Enforcement, or his successor, Ohio EPA, Division of Air Pollution Control, P.O. Box 1049, Columbus, Ohio 43216-1049.

3. Should Respondent miss a scheduled payment as described in Order Nos. 2.a. through 2.h. of these Orders, Respondent shall pay to Ohio EPA the missed payment amount no later than 7 days after the missed payment due date.
