IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent operates several processes, including nickel cadmium retort furnaces, an electronic arc furnace, and other physical separation techniques to re-utilize and recycle numerous types of batteries at its facility located at 265 Quarry Road, Lancaster, Fairfield County, Ohio (Facility). As a result of these processes, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a large quantity generator of hazardous waste and was issued generator identification number OHD071654958.

2. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

4. While Ohio EPA was reviewing Respondent’s Application, Respondent operated pursuant to Director's Final Findings and Orders (Exemption Orders), issued on December 12, 2003. The Exemption Orders were issued pursuant to ORC § 3734.02(G), 3734.13 and 3745.01 and incorporated, by reference, the Application. The Exemption Orders temporarily exempted Respondent from the requirement to obtain a hazardous waste installation and operation permit at the Facility, provided Respondent complied with the provisions in the Application, and would terminate upon Ohio EPA’s final disposition of Respondent’s Application.

5. On December 21, 2005, Ohio EPA issued to Respondent a hazardous waste facility installation and operation permit (Permit). The Permit authorizes Respondent to store hazardous waste at the Facility prior to conducting the battery recycling processes referenced in Finding No. 1 of these Orders.

Findings Related to the December 12, 2003 Exemption Orders

6. Order No. 2.d. of the Exemption Orders states that Respondent shall not commence operation, e.g., storage of universal waste, in any phase of the universal waste storage area until Respondent has provided to Ohio EPA documentation demonstrating that Respondent has obtained appropriate financial assurance and liability coverage as required by OAC Chapter 3745-55.
7. On January 20, 2004, Ohio EPA conducted a financial assurance review of Respondent's Facility and notified Respondent that Respondent had failed to provide documentation demonstrating that third party liability coverage had been obtained prior to commencing hazardous waste operations at the Facility. The documentation was necessary to demonstrate compliance with Order No. 2.d. of the Exemption Orders and OAC rule 3745-55-47.

9. On February 17, 2004, Ohio EPA conducted a site visit at the Facility. During the site visit, Ohio EPA observed Respondent storing batteries in the universal waste storage area at the Facility. Ohio EPA was also informed that hazardous waste operations at the Facility commenced approximately one month prior to Ohio EPA’s site visit, or January 17, 2004.

10. By letter dated March 23, 2004, Ohio EPA notified Respondent that Respondent had violated Order No. 2 of the Exemption Orders and OAC rule 3745-55-47 by commencing operations at the universal waste storage area without demonstrating that third party liability coverage had been obtained for hazardous waste operations at the Facility.

11. On March 31, 2004, Ohio EPA received Respondent's response to Ohio EPA’s March 23, 2004 letter, which included documentation demonstrating that third party liability coverage had been established for the Facility, thereby abating the violation referenced in Finding No. 10 of these Orders.

12. On April 27 and 28, 2004, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, inter alia:

   a. Failed to utilize the inspection checklists and processing forms as specified in the Application, in violation of the Exemption Orders;

   b. Failed to document inspections of emergency equipment at the Facility, in violation of the Exemption Orders and OAC rule 3745-54-33;

   c. Failed to mark a hazardous waste storage container with the accumulation start date, in violation of the Exemption Orders and OAC rule 3745-52-34(A)(2);
d. Failed to properly label hazardous waste storage and accumulation containers, in violation of the Exemption Orders and OAC rules 3745-52-34(A)(3) and 3745-52-34(C)(1);

e. Failed to document inspections of the hazardous waste storage area, in violation of the Exemption Orders and OAC rule 3745-55-74;

f. Failed to maintain written statements from qualified persons which demonstrate that ancillary equipment for a hazardous waste storage tank are supported and protected against physical damage and excessive stress, in violation of the Exemption Orders and OAC rule 3745-55-92(B)(D)(E)(G); and

g. Failed to document daily inspections of a hazardous waste storage tank, in violation of the Exemption Orders and OAC rule 3745-55-95.

13. By letter dated May 17, 2004, Ohio EPA notified Respondent of the violations referenced in Finding Nos. 12.a. through 12.g. of these Orders. Also in the May 17, 2004 letter, Ohio EPA notified Respondent that Respondent had abated the violations referenced in Finding Nos. 12.c. and 12.d. of these Orders.

14. On July 20, 2004, the chief of the Division of Hazardous Waste Management issued a letter to Respondent addressing concerns regarding Respondent's operation of the Facility and failure to comply with the Exemption Orders and provisions of the Application. Specifically, the letter stated:

"It is imperative that [Respondent] take seriously its responsibility to operate the [Facility] in compliance with Ohio's hazardous waste laws....Should Toxco fail to maintain compliance with the [Exemption Orders], its [Application] and Ohio's hazardous waste laws, [Ohio EPA] will consider other available enforcement options, including civil penalties."

15. On September 15 and 19, 2005, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, *inter alia*;

a. Failed to properly mark, for the purpose of tracking, containers of hazardous waste upon receipt at the Facility in accordance with the procedures specified in the Application, in violation of the Exemption Orders;
b. Failed to comply with the pallet stacking requirements by stacking pallets of hazardous waste higher than the maximum height specified in the Application, in violation of the Exemption Orders;

c. Failed to use the proper processing forms for inbound and outbound shipments of hazardous waste as specified in the Application, in violation of the Exemption Orders;

d. Failed to provide hazardous waste training specific to the hazardous waste contingency plan to employees at the Facility as specified in the Application, in violation of the Exemption Orders and OAC rule 3745-54-16(A)(2) and (3);

e. Failed to mark two hazardous waste storage containers with the accumulation start date, in violation of the Exemption Orders and OAC rule 3745-52-34(A)(2); and

16. By letter dated October 4, 2005, Ohio EPA notified Respondent of the violations referenced in Finding Nos. 15.a. through 15.f. of these Orders.

17. In correspondence dated November 2, 2005, Respondent provided responses to Ohio EPA’s October 4, 2005 letter.

18. By letter dated December 21, 2005, Ohio EPA notified Respondent that Respondent had abated the violations referenced in Finding Nos. 15.c. through 15.f. of these Orders.

19. On December 21, 2005, the Director of Ohio EPA approved Respondent’s Permit. Because the Permit superseded the Exemption Orders, no further action was required of Respondent with regard to the violations referenced in Finding Nos. 12.a., 12.b., 12.e. through 12.g., 15.a., and 15.b. of these Orders.

Findings Related to Permit Condition A.27(a) - Permit Corrections

20. Permit Condition A.27(a) states that Respondent must submit a permit modification request to Ohio EPA in accordance with OAC rule 3745-50-51 to update the Permit Application with all Permit Application corrections by the compliance deadline of January 20, 2006.
21. On March 7, 2006, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent, inter alia, failed to submit a permit modification request that included the information specified in Finding No. 20 of these Orders, in violation of Permit Condition A.27(a).

22. In correspondence dated March 10, 2006, Respondent submitted a Class 1 Permit Modification requesting a change in the compliance deadline established in Permit Condition A.27(a) from January 20, 2006 to April 15, 2006.

23. By letter dated March 21, 2006, Ohio EPA notified Respondent of the violation referenced in Finding No. 21 of these Orders.

25. In correspondence dated April 15, 2006, Respondent submitted a Class 1 Permit Modification which included all Permit Application corrections in accordance with Permit Condition A.27(a).

27. Based upon Respondent's March 10 and April 15, 2006 Permit Modification requests, the Director has determined that Respondent has abated the violation referenced in Finding No. 21 of these Orders.

Findings Related to Permit Condition A.27(b) - Financial Assurance

28. Permit Condition A.27(b) states that Respondent must submit a permit modification request to Ohio EPA in accordance with OAC rule 3745-50-51 to incorporate an updated closure cost estimate, an updated financial assurance mechanism for closure, and updated third party liability coverage into the Permit Application by the compliance deadline of February 19, 2006.

29. On March 7, 2006, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, inter alia;

updated, in violation of Permit Condition A.27(b)(l) and OAC rule 3745-55-42;

b. Failed to submit a permit modification request which includes documentation demonstrating that the financial assurance mechanism for closure has been updated, in violation of Permit Condition A.27(b)(ii) and OAC rule 3745-55-43; and

30. In correspondence dated March 10, 2006, Respondent submitted a Class I Permit Modification requesting a change in the compliance deadline established in Permit Condition A.27(b) from February 21, 2006 to May 12, 2006.

a. Failed to submit a permit modification request which includes documentation demonstrating that the closure cost estimate has been updated, in violation of Permit Condition A.27(b)(l) and OAC rule 3745-55-42;

b. Failed to submit a permit modification request which includes documentation demonstrating that the financial assurance mechanism for closure has been updated, in violation of Permit Condition A.27(b)(ii) and OAC rule 3745-55-43; and

c. Failed to submit a permit modification request which includes documentation demonstrating that third party liability coverage has been obtained for hazardous waste operations at the Facility, in violation of Permit Condition A.27(b)(iii) and OAC rule 3745-55-47.

33. By letter dated April 7, 2006, Ohio EPA notified Respondent of the violations referenced in Finding Nos. 32.a through 32.c of these Orders.
34. By letter dated April 14, 2006, Ohio EPA notified Respondent that the Permit Modifications requested in Respondent’s March 10, 2006 letter were not approved because the compliance deadline extension request was submitted after the compliance deadline specified in the Permit had expired.

36. By letter dated June 27, 2006, Ohio EPA notified Respondent that the Class 1 Permit Modification, referenced in Finding No. 35 of these Orders, was not approved because the financial documentation submitted by Respondent was not updated for inflation and therefore inadequate.

39. By letter dated September 1, 2006, Ohio EPA notified Respondent that the Class 1 Permit Modification, referenced in Finding No. 38 of these Orders, was not approved because the modification request was inaccurately classified as a Class 1 and should have been submitted as a Class 1 permit modification request requiring prior approval of the Director.

40. In correspondence dated December 12, 2006, Respondent submitted a Class 1 Permit Modification requesting the incorporation of an updated closure cost estimate into the Permit Application in accordance with Permit Condition A.27(b)(l) and OAC rule 3745-55-42.
