IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is the owner and operator of a permitted hazardous waste treatment and storage facility located at 7013 Krick Road, Bedford, Ohio (Facility). At the Facility, Respondent is also a large quantity generator of hazardous waste. Respondent is a corporation qualified to do business in Ohio on July 23, 1947.

2. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

3. Respondent notified Ohio EPA of its hazardous waste activities and was issued generator identification number OHD001926740 and hazardous waste treatment and storage permit number 02-18-0315 (Permit).

4. At the Facility, Respondent operates a "treatment" and "storage" "facility" as well as generates "hazardous waste" as those terms are defined by ORC § 3734.01 and OAC rules 3745-50-10(A) and 3745-51-03.

5. Respondent is authorized to store a maximum of 68,695 gallons per day of hazardous waste in containers at the Facility, in accordance with the Permit.

6. On October 19, 2010, Ohio EPA received an anonymous complaint that Respondent was avoiding entering signed hazardous waste manifests into the computerized inventory system to avoid detection of exceeding the authorized hazardous waste capacity amounts referenced in Finding No. 5. of these Orders.

7. On October 27, 2010, Ohio EPA conducted a complaint investigation and a compliance evaluation inspection of the Facility as a result of the complaint referenced in Finding No. 6. of these Orders.

8. By letter dated October 29, 2010, Respondent provided Ohio EPA a notification of noncompliance with their Permit whereby Respondent described exceedances of the authorized maximum capacity of hazardous waste referenced in Finding No. 5. of these Orders.

9. By letter dated November 8, 2010, Ohio EPA requested additional information regarding the notification referenced in Finding No. 8. of these Orders.

10. By electronic mail dated November 12, 2010, Respondent submitted a response to
Ohio EPA’s November 8, 2010 request for information. This response included a hazardous waste inventory log for September 2010, and two letters of reprimand for the employees considered responsible for the late entry of hazardous waste drums received from off-site.

11. On November 17, 2010, Ohio EPA and Respondent met to discuss the instance of non-compliance referenced in Finding No. 8. of these Orders, and the information provided in the November 12, 2010, submittal referenced in Finding No. 10. of these Orders.

12. As a result of the inspection referenced in Finding No. 7. of these Orders, the information submitted by Respondent referenced in Finding No. 10. of these Orders, and the meeting referenced in Finding No. 11. of these Orders, Ohio EPA determined that Respondent had, inter alia:

a. Unlawfully stored hazardous waste in violation of ORC § 3734.02 (E) and (F) and Permit Condition C.1.(a). Hazardous wastes received at the Facility were kept in areas authorized by the Permit, but the amount of hazardous waste present exceeded the container storage volume capacity authorized by Respondent’s Permit on at least 35 separate calendar days;

b. Failed to comply with all applicable provisions of ORC Chapter 3734, all applicable Ohio hazardous waste rules and all terms and conditions of the Permit, in violation of OAC rule 3745-50-58(A) and Permit Condition A.5;

c. Failed to properly operate and maintain the Facility to achieve compliance with the terms and conditions of the Permit, in violation of OAC rule 3745-50-58(E) and Permit Condition A.9; and

d. Failed to keep a current written operating record at the Facility, in violation of OAC rule 3745-54-73(B)(2) and Permit Condition B.21.

14. By letter dated January 10, 2011, Respondent submitted a response to the letter referenced in Finding No. 13. of these Orders. This letter contained information pertaining to the causes and extent of the noncompliance discovered by Respondent in October 2010, and the corrective actions being taken by Respondent.

15. By letter dated March 10, 2011, Ohio EPA notified Respondent that the violations referenced in Finding Nos. 12.b. and 12.d. of these Orders were abated.
16. The Director has since determined that Respondent is in violation of ORC § 3734.11(B) for unlawfully storing hazardous waste in excess of the quantity authorized by Respondent's Permit.

17. By letter dated April 11, 2011, Respondent submitted five Permit modification requests. One of the submitted Permit modifications was in response to the violation referenced in Finding No. 12. c. of these Orders, and it included a flow chart and an update to the incoming container management module to assure accurate, current inventory tracking.

18. By letter dated May 4, 2011, Ohio EPA notified Respondent that the violation referenced in Finding No. 12. c. of these Orders was abated.

19. The Director has determined that there is no further action required of Respondent with regard to the violations referenced in Finding Nos. 12.a. and 16. of these Orders.
