Director's Final
Findings and Orders

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Flat's Industrial Services, Inc. d.b.a. Dubro Oil Corporation (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facility shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated there under.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:
1. Respondent owns and operates a used oil processing plant at 2400 Mulberry Avenue, Cleveland, Cuyahoga County, Ohio (Facility). At the Facility, Respondent separates, filters, cleans and reconditions used oil and also blends and re-packages virgin and reconditioned oil.

2. Respondent is a “person” as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

3. Respondent notified Ohio EPA of its hazardous waste activities and was issued U.S. EPA identification number OHD058383126.

4. Respondent generates hazardous waste as that term is defined by ORC §3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a conditionally exempt small quantity generator of hazardous waste. Respondent is also a used oil transporter and used oil processor as those terms are defined by OAC rule 3745-279-01(A).

5. On August 17, 2010, Ohio EPA conducted a hazardous waste compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, inter alia,

   a. Transported hazardous waste spent kerosene (D008) from Duffin Manufacturing Company to the Facility, and subsequently caused the hazardous waste spent kerosene to be transported to an out-of-state facility, both of which do not hold a hazardous waste facility installation and operation permit nor are authorized to receive hazardous waste, in violation of ORC §3734.02(F);

   b. Stored the hazardous waste spent kerosene referenced in Finding No. 5.a. prior to its shipment off-site and thereby unlawfully established and operated a hazardous waste storage facility without a hazardous waste installation and operation permit, in violation of ORC §3734.02(E) and (F). While the hazardous waste was stored at the Facility, no releases of hazardous waste occurred.

   c. Failed to adequately evaluate waste generated at the Facility to determine if the waste was hazardous waste, in violation of OAC rule 3745-52-11;
d. Failed to comply with the requirements of the rebuttable presumption for used oil transporters by demonstrating that the used oil being transported is not a hazardous waste, in violation of OAC rule 3745-279-44(A) and (B);

e. Failed to keep a record of each used oil shipment accepted for transport, in violation of OAC rule 3745-279-46(A);

f. Failed to maintain the Facility in a manner to minimize the release of used oil to the environment, in violation of OAC rule 3745-279-52(A)(1);

g. Failed to equip the Facility with an internal communication or alarm system capable of providing immediate emergency instruction to Facility personnel, in violation of OAC rule 3745-279-52(A)(2);

h. Failed to test and maintain emergency equipment at the Facility, in violation of OAC rule 3745-279-52(A)(3);

i. Failed to develop, maintain and distribute a contingency plan for the Facility, in violation of OAC rule 3745-279-52(B);

j. Failed to comply with the requirements for the rebuttable presumption for used oil processors, in violation of OAC rule 3745-279-53(A) and (B);

k. Failed to label tanks and containers of used oil with the words "Used Oil," in violation of OAC rule 3745-279-54(F)(1);

l. Failed to develop and implement a used oil analysis plan, in violation of OAC rule 3745-279-55(A);

m. Failed to keep a record of each used oil shipment accepted for processing and/or shipped to a used oil burner and failed to retain these records, in violation of OAC rule 3745-279-56(A) and (C);

n. Failed to maintain the operating record required for used oil processors, in violation of OAC rule 3745-279-57(A);

o. Failed to submit the required biennial report to the Director by March 1st of each even numbered year, which is to provide information concerning
used oil activities at the Facility, in violation of OAC rule 3745-279-57(B); and

p. Failed to evaluate the residues generated from the storage, processing or re-refining of used oil, in violation of OAC rule 3745-279-59.

6. By letter dated August 23, 2010, Ohio EPA notified Respondent of the violations referenced in Finding No. 5. of these Orders.

7. By letter dated September 22, 2010, Ohio EPA received information from Respondent to address the violations referenced in Finding No. 5. of these Orders.

8. By electronic mail on October 7, 2010, Ohio EPA received additional information from Respondent's consultant, including analytical results for purposes of waste characterization, a daily product inventory, and a copy of a SPCC plan for the Facility.

9. On December 7, 2010, Ohio EPA conducted a follow up hazardous waste compliance evaluation inspection at the Facility. During this inspection Ohio EPA reviewed the status of violations found during the inspection conducted on August 17, 2010, including, but not limited to, reviewing Respondents' Facility contingency plan, used oil profiles and used oil shipping papers.

10. By letter dated January 5, 2011, Ohio EPA notified Respondent it had abated the violations referenced in Finding Nos. 5.f., 5.k., 5.o. and 5.p. of these Orders.

11. By letter dated February 8, 2011, Ohio EPA received information from Respondent to address the remaining violations referenced in Finding No. 5. of these Orders. This information included copies of used oil profile forms, shipping records, security and fire suppression information, and emergency equipment inspection records.

12. By letter dated February 16, 2011, Ohio EPA received information from Respondent concerning implementation of Respondent's used oil analysis plan.
13. By letter dated February 24, 2011, Ohio EPA notified Respondent it had abated the violations referenced in Finding Nos. 5.c., 5.d., 5.e., 5.g., 5.h., 5.i., 5.j., 5.l., 5.m. and 5.n. of these Orders.

14. Based upon the temporary period of time the hazardous waste was stored, that there were no releases of hazardous waste, and the information in Respondent’s September 22, 2010, letter to Ohio EPA referenced in Finding No. 7., the Director has determined that Respondent has met the closure performance standard of OAC rule 3745-55-11 for the hazardous waste storage unit described in Finding No. 5.b. and no further action is required by Respondent to abate the violations referenced in Finding Nos. 5.a. and 5.b.
