Director’s Final
Findings and Orders

I certify this to be a true and accurate copy of the
official documents as filed in the records of the Ohio
Environmental Protection Agency.

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director’s Final Findings and Orders (Orders) are issued to Bosserman
Aviation Equipment, Inc. (Respondent) pursuant to the authority vested in the Director
of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code
(ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in
interest liable under Ohio law. No change in ownership of the Respondent or of the
Facility owned by Respondent shall in any way alter Respondent’s obligations under
these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same
meaning as defined in ORC Chapter 3734. and the rules promulgated there under.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a “person” as defined in ORC § 3734.01(G) and Ohio
Administrative Code (OAC) rule 3745-50-10(A).
2. Respondent operates an aircraft re-fueling building, servicing and refurbishing facility located at 2327 State Route 568, Carey, Wyandot County, Ohio 43316 (Facility).

3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a small quantity generator of hazardous waste and has been assigned EPA ID number OHR000147876. The hazardous wastes generated by Respondent at the Facility include hazardous waste paint, solvents and distillation bottoms, used oil, rags, and scrap metal (hazardous waste codes D001/F003/F005). Respondent is a small quantity handler of universal waste and generates spent lamps.

4. On January 20, and March 24, 2006, Ohio EPA performed compliance evaluation inspections at the Facility, and requested additional information to determine Respondent’s compliance with Ohio’s hazardous waste rules.

6. As a result of the inspections and the documents submitted, Ohio EPA has determined that Respondent, *inter alia*, failed to evaluate wastes generated to determine if they are hazardous, in violation of OAC rule 3745-52-11.

8. On April 10, 2008, Ohio EPA conducted a compliance evaluation inspection at the Facility. As a result of this inspection, Ohio EPA determined that Respondent was a small quantity generator, and had, *inter alia*:

   a. Illegally stored hazardous waste for greater than 180 days without a permit, in violation of ORC § 3734.02 (E) and (F);

   b. Failed to obtain a generator ID number prior to offering hazardous waste for transportation, in violation of OAC rule 3745-52-12;

   c. Failed to keep satellite accumulation area containers closed, in violation of OAC rule 3745-52-34(C)(1)(a);
d. Failed to label satellite accumulation area containers with the words "hazardous waste" in violation of OAC rule 3745-52-34(C)(1)(b);

e. Failed to label containers in the container storage area with the word "hazardous waste" in violation of OAC rule 3745-52-34(A)(3);

f. Failed to label the containers in the container accumulation area with the date that accumulation began, in violation of OAC rule 3745-52-34(A)(2);

g. Failed to have the required emergency information posted by the telephone, in violation of OAC rule 3745-52-34(D)(5)(b);

h. Failed to perform and record inspections of the emergency equipment, in violation of OAC rule 3745-65-33; and

i. Failed to conduct and record inspections of the container storage area, in violation of OAC rule 3745-66-74.

9. Ohio EPA notified Respondent of the violations referenced in Finding No. 8. by letter dated May 1, 2008, and that the violations referenced in Finding Nos. 8.c. through 8.f. were abated during the inspection.

11. Respondent submitted documentation on June 6, 2008, abating the violations referenced in Finding Nos. 8.b., 8.h. and 8.i. of these Orders.

12. Respondent submitted a photograph on June 17, 2008, abating the violation referenced in Finding No. 8.g. of these Orders.

13. Because Respondent failed to provide documentation showing that the hazardous waste generated from the recycling of the solvent/paint waste in the distillation unit was properly managed as a hazardous waste, the Director has determined that Respondent is in violation of ORC § 3734.02 (F) for transporting or causing to be transported hazardous waste to an unpermitted facility.

14. Because Respondent will continue to store hazardous waste in the less than 180 day accumulation area and because no releases of hazardous waste were observed, the Director has determined that no additional action is required of
Respondent regarding the ORC § 3734.02(E) and (F) violation referenced in Finding No. 8.a. of these Orders.

15. Respondent submitted financial documentation to Ohio EPA for review on February 11, 2009, and August 4, 2009. Ohio EPA and Respondent participated in a number of conference calls to discuss this information. In addition to the February and August 2009 financial information and discussions regarding the financial information, Ohio EPA participated in a conference call with Respondent and Respondent’s certified public accountant on October 13, 2009. During the conference call, Respondent and Respondent’s certified public accountant provided a specific detailed analysis of Respondent’s financial condition and provided Respondent’s most recent financial information. Based upon the financial information and discussions with Respondent and Respondent’s certified public accountant and other mitigating information, Ohio EPA has determined that Respondent does not possess the ability to pay the civil penalty as proposed.
