PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Component
Repair Technologies, Inc. (Respondent) pursuant to the authority vested in the Director
of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code
(ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in
interest liable under Ohio law. No change in ownership of the Respondent or of the
Facility owned by the Respondent shall in any way alter Respondent's obligations under
these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same
meaning as defined in ORC Chapter 3734, and the rules promulgated there under.

IV. FINDINGS

All of the findings necessary for the issuance of these Orders pursuant to ORC §
3734.13 and 3745.01 have been made and are outlined below. Nothing in the findings
shall be considered to be an admission by Respondent of any matter of law or fact. The
Director of Ohio EPA has determined the following findings:
1. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

2. Respondent operates a commercial jet engine overhauling facility located at 8507 Taylor Blvd., Mentor, Lake County, Ohio 44060 (Facility).

3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a large quantity generator of hazardous waste and has been assigned EPA ID number OHD147190417. The hazardous wastes generated by Respondent at the Facility include hazardous waste plating line waste (D002, D007, D008), cleaning line waste (D002, D006, D007, D008), paint waste (D001, D035, D007), degreasers (D008, D039, D040, F001), solvents (D001, D007, D035, F003, F005), aerosols (D001, D035), and corrosives (D002). Respondent is a small quantity handler of universal waste and generates spent lamps and batteries.

4. On September 18, 2007 Ohio EPA performed a compliance evaluation inspection at the Facility. As a result of this inspection, Ohio EPA informed Respondent that it had, *inter alia*:

   a. Managed hazardous waste at the Facility, in violation of ORC § 3734.02 (E) and (F);

   b. Failed to maintain the required personnel training documents at the Facility, in violation of OAC rule 3745-52-34(D)(1) - (3);

   c. Failed to have all of the documents related to the contingency plan at the Facility, in violation of OAC rule 3745-65-52(D);

   d. Failed to provide an immediately available telephone in the 90-day container storage area in violation of OAC rules 3745-65-32(B) and 3745-65-34(A);

   e. Failed to conduct and record emergency equipment inspections in violation of OAC rule 3745-65-33;

   f. Failed to keep hazardous waste satellite accumulation containers closed, except when adding or removing waste, in violation of OAC rule 3745-52-34(C)(1)(a);
g. Failed to label a container of hazardous waste with the words "Hazardous Waste," in violation of OAC rule 3745-52-34(A)(3);

h. Failed to date containers of hazardous waste in the accumulation area with the date that accumulation began, in violation of OAC rule 3745-52-34(A)(2);

i. Failed to keep a container of hazardous waste closed in the 90-day storage area, in violation of OAC rule 3745-66-73(A);

j. Failed conduct and/or record container accumulation area inspections on a weekly basis, in violation of OAC rule 3745-66-74;

k. Failed to label/mark containers holding used oil with the words "Used Oil," in violation of OAC rule 3745-279-22(C);

l. Failed to label/mark containers holding universal waste lamps with one of the following phrases: "Universal Waste-Lamp(s)," or "Waste Lamp(s)," or "Used Lamp(s)," in violation of OAC rule 3745-273-14(E); and

m. Failed to record the length of time that universal waste lamps had been accumulating, in violation of OAC rule 3745-273-15(C).

5. By letter dated October 15, 2007, Ohio EPA notified Respondent of the violations referenced in Finding No. 4., and that violations 4.f. through 4.h. and 4.k. through 4.m. were abated during the inspection.

6. Ohio EPA received a response to the violations referenced in Finding No. 4. on November 15, 2007.

7. By letter dated December 4, 2007, Ohio EPA notified Respondent that it had abated the violations referenced in Finding Nos. 4.c., e., i. and j. of these Orders.

8. Ohio EPA received a response to the outstanding violations by letter from the Respondent on December 24, 2007.

9. After additional correspondence, by letter dated March 10, 2008, Ohio EPA notified Respondent it had abated the violations referenced in Finding Nos. 4.b. and d. of these Orders.
10. In electronic correspondence dated December 4, 2008, Respondent submitted information pertaining to a proposed supplemental environmental project (SEP). Specifically, the SEP information detailed the removal of the vapor degreaser at the Facility. Respondent uses the vapor degreaser for initial and in-process cleaning of parts to remove oil and grease. As a result of the use of the vapor degreaser, Respondent generates hazardous waste TCE (F001, D040, D008). In place of the vapor degreaser, Respondent proposes to use an aqueous power wash process to clean parts.

11. Because Respondent will continue to store hazardous waste in the less than ninety day accumulation area and because no releases of hazardous waste were observed, the Director has determined that no additional action is required of Respondent at this time regarding the violation referenced in Finding No. 4.a. of these Orders.

V. ORDERS

Respondent shall achieve compliance with Chapter 3734. of the ORC and the regulations promulgated there under according to the following compliance schedule:

d. In lieu of paying the remaining $2,000.00 of civil penalty to Ohio EPA, Respondent shall fund a supplemental environmental project (SEP) by making a contribution in the amount of $2,000.00 to the Ohio EPA Clean Diesel School Bus Program (Fund 5CD).
