Respondent

Director's Final
Findings and Orders

I certify this to be a true and accurate copy of the
official documents as filed in the records of the Ohio
Environmental Protection Agency.

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Master Chrome Service, Inc. (Respondent) pursuant to the authority vested in the Director of the Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§ 3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in interest liable under Ohio law. No change in ownership of Respondent or of the Facilities shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a "person" as defined in ORC § 3734.01(G) and OAC rule 3745-50-10(A).

2. Respondent is the owner and operator of an industrial hard chrome plating facility at 5709 Herman Avenue NE in Cleveland, Ohio.
3. Respondent notified Ohio EPA regarding its hazardous waste activities on May 15, 1992 and was issued generator identification number OHD987040326. Respondent was authorized to do business in Ohio on June 17, 1936.

4. Respondent is a small quantity generator (although in 2006 and in its original notification, Respondent was a large quantity generator) and generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent generates waste acetone (D001), trichloroethylene (F002, D040), lead chromate (D007, D008), sodium hydroxide (D002) and chrome plating tank wastes (D007).

5. On February 13, 2008, Ohio EPA performed a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, inter alia:

   a. Failed to have the date upon which each period of accumulation begins clearly marked and visible for inspection on the labels of seven drums of lead chromate waste, in violation of OAC rule 3745-52-34(A)(2).

   b. Stored six drums of hazardous waste lead chromate for greater than 180 days, in violation of ORC § 3734.02(E) and (F).

   c. Failed to conduct emergency equipment inspections in violation of OAC rule 3745-65-33.

   d. Failed to properly package its fluorescent lamps, in violation of OAC rule 3745-273-13(D)(1).

9. After review of the information submitted on March 25, 2008, the Director has determined Respondent has demonstrated that the violations listed in Finding Nos. 5.a., 5.c. and 5.d. of these Orders have been abated.
10. By letter dated May 16, 2008, Ohio EPA notified Respondent regarding the violations that had been abated.

11. Because Respondent is currently using the hazardous waste accumulation area where hazardous waste was stored for greater than 180 days, and Ohio EPA did not observe any releases of hazardous waste at the time of the inspection referenced in Finding No. 5. of these Orders, the Director has determined that closure of the hazardous waste accumulation area is not required at this time. Therefore, no further action is required at this time to abate the violation referenced in Finding No. 5.b. of these Orders.

12. On July 8, 2008, Respondent submitted copies of the last five years of its financial reports and Federal income tax returns.

13. After review of the information submitted on July 8, 2008, the Director has determined Respondent does not have the ability to pay the entire civil penalty amount proposed in the Director's letter of June 6, 2008.

V. ORDERS

Respondent shall achieve compliance with Chapter 3734. of the ORC and the regulations promulgated there under according to the following compliance schedule:
