Findings and Orders

Respondent

I certify this to be a true and accurate copy of the
official documents as filed in the records of the Ohio
Environmental Protection Agency.

PREAMBLE

It is agreed by the parties hereto as follows: By: Date: 1-16-09

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to The Gorman-
Rupp Company (Respondent) pursuant to the authority vested in the Director of the
Ohio Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§
3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in
interest liable under Ohio law. No change in ownership of Respondent or of the Facility
shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same
meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.

IV. FINDINGS

The Director of Ohio EPA has determined the following findings:
1. Respondent is the owner and operator of a facility that manufactures pumps and pumping systems for use in the municipal, water, wastewater, sewage, industrial, construction, petroleum and fire markets. The facility is located at 305 Bowman Street, Richland County, Mansfield, Ohio (Facility).

2. Respondent is a "person" as defined in ORC § 3734.01(G) and OAC rule 3745-50-10(A).

3. Respondent notified Ohio EPA regarding its hazardous waste activities on October 15, 1985 and was issued generator identification number OHD004154308. Respondent was authorized to do business in Ohio on April 18, 1934.

4. Respondent is a small quantity generator and generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent generates spent paint filters (hazardous waste codes D001, F003), still bottoms (D001, F003), waste solvent (D001, F003) and waste mineral spirits from a tank cleanout that occurred in April 2006 (D001).

5. On February 27, 2007, Ohio EPA performed a compliance evaluation inspection at the Facility. As a result of the inspection, Ohio EPA determined that Respondent had, *inter alia*:

   a. Disposed of its waste acetone solvent used for cleaning paint guns by spraying the waste solvent onto cardboard and subsequently treated the waste solvent by allowing it to evaporate from the cardboard into the air in violation of ORC § 3734.02(E) and (F);

   b. Failed to evaluate the waste acetone solvent and the waste cardboard containing the spent acetone to determine if the wastes were hazardous waste, in violation of OAC rule 3745-52-11;

   c. Failed to determine if the waste acetone solvent or waste cardboard containing the spent acetone needed to be treated before land disposal, in violation of OAC rule 3745-270-07(A)(1);

   d. Failed to determine each EPA hazardous waste number applicable to the waste acetone solvent and waste cardboard containing the spent acetone, in order to determine the applicable treatment standards for these wastes, in violation of OAC rule 3745-270-09(A);
e. Failed to submit an exception report for its April 28, 2006 bulk shipment of waste mineral spirits (D001), in violation of OAC rule 3745-52-42(A)(2). This violation was abated at the time of the inspection;

f. Failed to store its universal waste lamps in closed containers, in violation of OAC rule 3745-273-13(D)(1);

g. Failed to label its universal waste lamps, in violation of OAC rule 3745-273-14(E). This violation was abated at the time of the inspection; and

h. Failed to demonstrate the length of time its universal waste lamps had been accumulated, in violation of OAC rule 3745-273-15(C).

6. By letter dated April 18, 2007, Ohio EPA notified Respondent of the violations referenced in Finding No. 5 of these Orders.

8. By letter dated November 8, 2007, Ohio EPA informed Respondent that it had abated all violations discovered during the February 27, 2007 inspection at the Facility, with the exception of ORC § 3734.02(E) and (F) listed in Finding No. 5.a. of these Orders.

9. After review of the information submitted on May 17, 2007, Ohio EPA determined Respondent had ceased treatment and disposal of its hazardous waste acetone solvent and waste cardboard containing the spent acetone, and had developed a new standard operating procedure for managing the hazardous waste acetone. Therefore, the Director has determined no further action is required to abate the violation referenced in Finding No. 5.a. of these Orders.

V. ORDERS

Respondent shall achieve compliance with Chapter 3734. of the ORC and the regulations promulgated there under according to the following compliance schedule:
