Director's Final
Findings and Orders

I certify this to be a true and accurate copy of the
official documents as filed in the records of the Ohio
Environmental Protection Agency.

PREAMBLE

It is agreed by the parties hereto as follows:

I. JURISDICTION

These Director's Final Findings and Orders (Orders) are issued to Smitty's Car
Craft, Inc. (Respondent) pursuant to the authority vested in the Director of the Ohio
Environmental Protection Agency (Ohio EPA) under Ohio Revised Code (ORC) §§
3734.13 and 3745.01.

II. PARTIES BOUND

These Orders shall apply to and be binding upon Respondent and successors in
interest liable under Ohio law. No change in ownership of Respondent or of the Facility
shall in any way alter Respondent's obligations under these Orders.

III. DEFINITIONS

Unless otherwise stated, all terms used in these Orders shall have the same
meaning as defined in ORC Chapter 3734. and the rules promulgated thereunder.
IV. FINDINGS

The Director of Ohio EPA has determined the following findings:

1. Respondent is a "person" as defined in ORC § 3734.01(G) and Ohio Administrative Code (OAC) rule 3745-50-10(A).

2. Respondent operates a collision repair facility located at 747 Sugar Lane, Elyria, Lorain County, Ohio 44035 (Facility).

3. At the Facility, Respondent generates "hazardous waste" as that term is defined by ORC § 3734.01(J) and OAC rules 3745-50-10(A) and 3745-51-03. Respondent is a small quantity generator of hazardous waste and has been assigned EPA ID number OHD982419764. The hazardous wastes generated by Respondent at the Facility include spent solvents generated from cleaning spray guns (hazardous waste codes D001/D035/F003/F005). The spent solvents are stored in drums and subsequently placed into a solvent recycling unit. The resulting still bottoms from the solvent recycling unit are F005 listed hazardous waste derived from the treatment of F005 listed hazardous waste spent solvent.

4. On June 24, 2010, Ohio EPA DHWM conducted a compliance evaluation inspection at the Facility. As a result of this inspection Ohio EPA determined that Respondent had, *inter alia*:

   a. Caused F005 hazardous waste still bottoms to be transported to an unpermitted facility, in violation of ORC §3734.02 (F);

   b. Unlawfully stored at least nineteen drums of D001/D035/F003/F005 hazardous waste without a permit, in violation of ORC §3734.02 (E) and (F);

   c. Failed to adequately evaluate wastes to determine if they are hazardous wastes, in violation of OAC rule 3745-52-11;

   d. Failed to label and date containers of hazardous waste, in violation of OAC rule 3745-52-34(A)(2) and (3);

   e. Failed to post emergency information by the phone, in violation of OAC rule 3745-52-34(D)(5)(b) and (c);
f. Failed to operate the Facility in a manner to minimize the possibility of a fire, explosion, or any releases of hazardous waste to air, soil or surface water, in violation of OAC rule 3745-65-31;

g. Failed to conduct inspections of emergency equipment, in violation of OAC rule 3745-65-33;

h. Failed to store hazardous wastes in containers that are in good condition, in violation of OAC rule 3745-66-71;

i. Failed to store hazardous waste in closed containers, and manage them in a manner to prevent leaks, in violation of OAC rule 3745-66-73(A) and (B); and

j. Failed to conduct weekly inspections of the hazardous waste storage area, in violation of OAC rule 3745-66-74.

5. Respondent was notified of the violations referenced in Finding No. 4. of these Orders by letter dated July 12, 2010.

7. By letter dated September 2, 2010, Ohio EPA notified Respondent that the violations referenced in Finding Nos. 4.a., 4.c., 4.d., 4.e., 4.g., 4.h., 4.i. and 4.j. of these Orders were abated.

8. Because the soil was stained in the unpermitted storage area referenced in Finding No. 4.b. of these Orders, Respondent conducted soil sampling in the unpermitted storage area on October 7, 2010, and submitted the results to Ohio EPA by letter dated October 28, 2010.

9. On November 18, 2010, Ohio EPA conducted a follow up inspection at the Facility. Additionally, Ohio EPA provided comments concerning the October 7, 2010, soil sampling activities and proposed soil removal activities.

10. Respondent conducted additional soil sampling and soil removal in the unpermitted storage area on January 12, 2011. Stained soil was removed and placed into two twenty-yard rolloff dumpsters and was properly transported off-site.
11. By letter dated January 26, 2011, Respondent submitted a report of the soil removal activities and sampling referenced in Finding No. 10. of these Orders to Ohio EPA.

12. Based upon the results of the soil sampling performed in conjunction with the soil removal activities referenced in Finding Nos. 8, 9, and 10. of these Orders, the Director has determined that Respondent has met the closure performance standard requirements of OAC rule 3745-55-11 for the areas referenced in Finding No. 4.b. of these Orders and no further action is required to abate the violations referenced in finding Nos. 4.b. and 4.f. of these Orders.

13. By letter dated March 25, 2011, Ohio EPA notified Respondent of the no further action determination referenced in Finding No. 12. of these Orders.

14. Based upon a review of financial information submitted by Respondent on July 26, 2011, Ohio EPA determined that Respondent does not possess the financial ability to pay the entire civil penalty settlement proposed in the Director's letter of April 21, 2011.
