

**ATTACHMENT B7
INFECTIOUS WASTE TREATMENT FACILITY**

INFORMATION TO BE SHOWN ON PLANS AND/OR SUBMITTED WITH PLANS

OAC RULE 3745-27-37 PARAGRAPH	CONTENT	Plan Drawing No.	Section No.
----------------------------------	---------	---------------------	----------------

DETAIL ENGINEERING PLAN DRAWINGS

(B)(1)(a)	Cover sheet: name of the facility		
(B)(1)(b)	Cover sheet: precise geographic location, boundaries, etc.		
(B)(1)(c)	Cover sheet: name and address of the applicant and the operator of the treatment facility		
(B)(1)(d)	Cover sheet: name and address of the owner		
(B)(1)(e)	Cover sheet: name and address of the person who prepared the plans		
(B)(2)(a)	Within 1000 feet: property lines		
(B)(2)(b)	Within 1000 feet: public roads, railroads and domiciles		
(B)(2)(c)	Within 1000 feet: existing land uses or zoning classifications, property owners, political subdivisions, and communities		
(B)(2)(d)	Within 1000 feet: north arrow		
(B)(2)(e)	Within 1000 feet: surface waters of the state		
(B)(3)(a)	On property: location of all existing or proposed treatment buildings, storage facilities, and occupied structures		
(B)(3)(b)	On property: location of all fencing, gates, natural screening and other screening on the site		
(B)(3)(c)	On property: location of infectious waste handling areas		
(B)(3)(d)	On property: location of the drainage structures		
(B)(3)(e)	On property: location of spill containment and clean-up kits		
(B)(3)(f)	On property: location of fire extinguishers and other fire response equipment		
(B)(4)	Detailed engineering plan drawings showing plan view, front view, and profile view, with sufficient detail to provide full understanding of the design and operation of each treatment unit.		
(B)(5)(a)	Distance between the infectious waste handling areas and the property line of the premises on which the infectious waste treatment facility will be located		
(B)(5)(b)	Within one thousand feet of the infectious waste handling areas: domiciles, schools, jails, and prisons

----------------------------------	---------	---------------------	----------------

SUMMARY AND OPERATIONAL INFORMATION

(C)(1)	Summary of how the infectious waste treatment facility will meet the standards and operational requirements specified in OAC Rules 3745-27-32 and 3745-27-37.		
(C)(2)(a)	Discussion of method of treatment. Please include all operational parameters, how the unit will monitor for those parameters and the use of biological indicators for quality assurance testing.		
(C)(2)(b)	Identification and utilization of all existing or proposed treatment buildings, storage facilities, and occupied structures		
(C)(2)(c)	Utilization of all fencing, gates, natural screening, and other screening on the site		
(C)(2)(d)	Utilization of infectious waste handling areas		
(C)(2)(e)	Utilization and drainage of the decontamination area		
(C)(2)(f)	Operating hours		
(C)(2)(g)	Functions, qualifications, training, and certification of staff		
(C)(2)(h)	Format and use of the daily operating log, which shall include all operational and maintenance procedures and sources of service and parts		
(C)(2)(i)	Design and function of the water cooling and collection system for ash		
(C)(2)(j)	Handling and disposal of particulates captured by the air pollution control system		
(C)(2)(k)	Method used to distinguish hazardous waste		
(C)(2)(l)	Method used to distinguish infectious wastes that are also radioactive waste		
(C)(2)(m)	Quality control measures specified in OAC Rule 3745-27-32(C)		
(C)(2)(n)	Names and addresses of any third party contracted for quality control activities		
(C)(2)(o)	Accident or spill containment procedures		
(C)(2)(p)	Contingency plans specified in OAC Rule 3745-27-35(C)		
(C)(2)(q)	Coordination with local officials such as: the fire department, local emergency management officials, and the police department
