RE: 2014 SLAMS Data Certification

Dear Mr. Czerniak:

At this time we are certifying the remainder of Ohio's ambient monitoring data. Please find enclosed our SLAMS Report (AMP-450NC and AMP-600) for calendar year 2014 as required in 40 CFR, Part 58, Section 58.15. The ambient concentration and the quality assurance data for these sites have been completely submitted to the AQS database.

The ozone data as well as two lead sites (39-051-0001 and 39-035-0049) and the PM2.5 data for the counties of Stark, Summit, Butler, and Hamilton were certified on March 10, 2015.

I certify that the data in the report are accurate to the best of our knowledge taking into consideration the quality assurance findings and only to the extent of the activities performed by Ohio EPA.

There were no incidents of air pollution that reached or exceeded levels as specified by Section 51.151 which could cause significant harm to the health of persons.

Sincerely,

A handwritten signature in blue ink that reads "Robert Hodanbosi".

Robert Hodanbosi
Chief, Division of Air Pollution Control

Enclosure
