

Division of Materials and Waste Management
Beneficial Use General Permit
Notice of Intent Form

Instructions

This Notice of Intent (NOI) form may be submitted to seek coverage under a valid General Permit. Ohio EPA's Beneficial Use Program (Ohio Administrative Code Chapter 3745-599) has issued the following General Permits for the listed beneficial use byproducts:

| Beneficial Use Byproduct | General Permit Number | Expiration Date | End Use |
|--|---------------------------------------|-----------------|--|
| Foundry Sand | BUGPFS01 | March 31, 2022 | <ul style="list-style-type: none"> • Soil blending • Soil-less potting media • Bioretention soils |
| | BUGPFS02 | March 31, 2022 | <ul style="list-style-type: none"> • Structural fill • Road construction sub-base • Pipe bedding |
| Drinking Water Treatment Material | BUGPDWTM002 (Surface Water Source) | June 2, 2026 | Land application as a replacement for mined lime used for agronomic benefit |
| | BUGPDWTM001 (Ground Water Source) | June 2, 2026 | |
| Sewage Sludge Incinerator Ash | BUGPSSIA001 | October 6, 2022 | <ul style="list-style-type: none"> • Soil blending • Use in compost product • Structural fill |

General Permits are available for review at <https://www.epa.state.oh.us/dmwm/Home/Beneficial-Use>. The NOI form must include a sampling and analysis plan and analytical results. If known at the time of application, the applicant should identify the beneficial use locations. General Permits include location restrictions and best management practices for storage, management and beneficial use of the material.

If you wish to use a beneficial use byproduct in an application other than those provided for in the General Permit, you may apply for an individual permit. Please note that beneficial use byproducts may be used as an ingredient in certain construction materials such as cement or asphalt concrete, with no required beneficial use authorization. Beneficial use byproducts may also be used as a fuel or ingredient in a combustion unit, with no required beneficial use authorization.

For materials not included in OAC Chapter 3745-599, please see the Integrated Alternative Waste Management Plans (IAWMP) or Land Application Management Plan (LAMP) programs to seek authorization. Common waste materials authorized by a LAMP permit include cast gypsum, flue gas desulfurization (FGD) gypsum, cement kiln dust (CKD), blasting sand, and paper pulp sludge.

This NOI form is organized by sections. When completing each section, please type all information requested on the form and mark (✓) for all required reports and plans listed in the instructions. When preparing a complete application, please print the form and attach all required documents.

The completed NOI application may be submitted via the Division of Materials and Waste Management's dropbox at https://fileshare.epa.ohio.gov/filedrop/co_dmwm_submittals.

The fee to apply for a General Permit is \$200.

It may be necessary to obtain and comply with any authorizations required by ORC Chapters 6111 and 3704, including but not limited to a permit for the control of fugitive dust and other air emissions or National Pollutant Discharge Elimination System (NPDES) permit for the control of stormwater and the discharge of wastewater, for the control of stormwater run-on and run-off, and protect waters of the state.
