New Online Annual Report Service

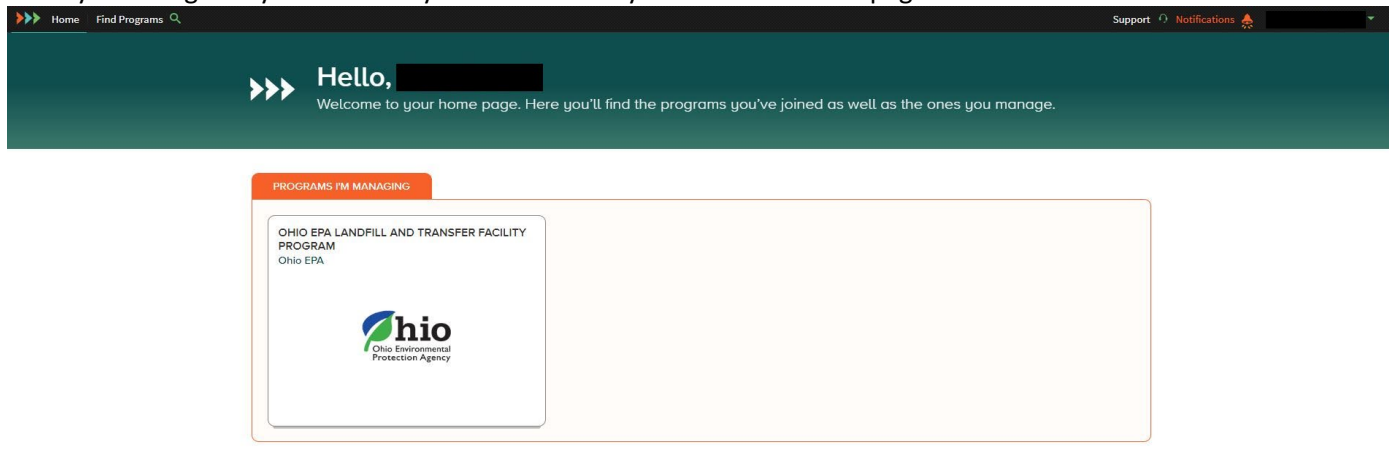

In 2021, Ohio EPA, Division of Materials and Waste Management, launched **Ohio EPA Landfill and Transfer Facility Program Annual Report Service**, an online system for completing and submitting the MSW Landfill, IMW Landfill, Closed Landfill and Transfer Station Facility Annual Operational Reports due on April 1st of each year. The service was developed using the Re-TRAC Connect platform and that is why you are receiving emails from Re-TRAC Connect. Please make sure that your email does not send these messages to your junk folder. We believe this will make it easier for you to submit the annual report as you will not have to print, scan, and mail it to Ohio EPA. Another great feature is that you will have access to an online record of all your annual reports from now on.

Re-TRAC Landfill Instruction Guide

Get Started – Login

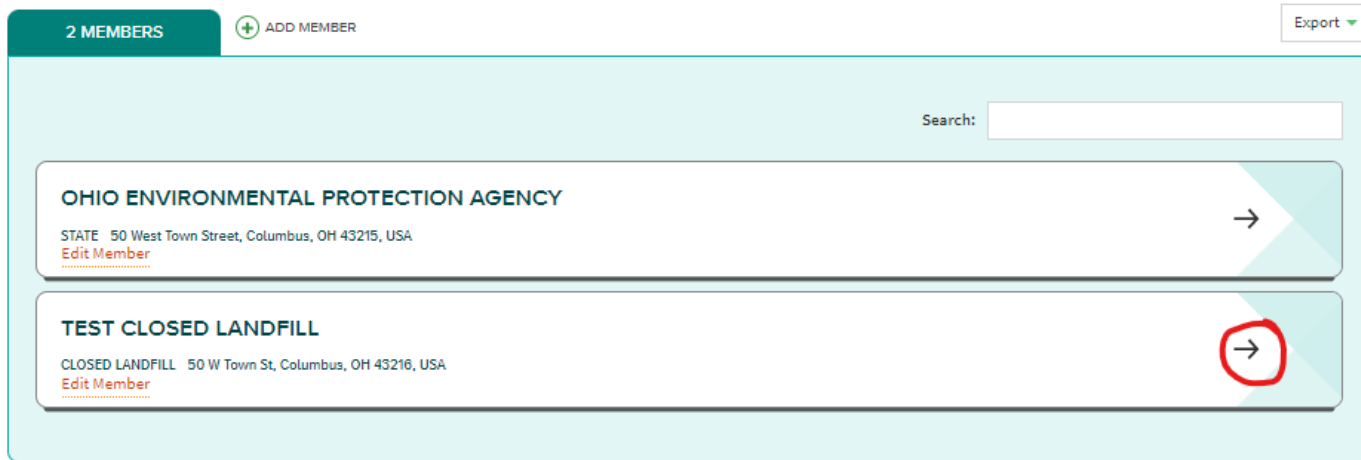

Navigate to <https://www.re-trac.com/> and click the login button on the top right of your screen. You will use the same information that was used in 2021 to sign into the annual report. If you have any questions or need assistance with Log-In, please contact Cassandra.Schramm@epa.ohio.gov.

Once you've log into your account you will arrive at your account's start page:

Once there, click on the “Ohio EPA Landfill and Transfer Facility Program” tile. This will take you to a list of facilities you manage (see below). If you do not see the facility you manage listed, please contact Cassandra.schramm@epa.ohio.gov for assistance. Click on the arrow to the right of facility that you want to work on (see below) and it will take you to your Workspace where you can begin the annual report.

MEMBERS

Instructions for Completing the Annual Operational Report

Once you arrive at your Workspace you will see 2 surveys listed, these surveys are your Annual Operational Report. Each section will need to be completed and saved to submit a complete and final report to Ohio EPA.

WORKSPACE

Active | 2020-2019

Closed Landfill Surveys

Closed Landfill Survey VIEWALL →

DRAFT Annual, 2020

Certification

Certification VIEWALL →

NEW Annual, 2020

[Opening a Survey](#)

Click on the “New” box next to the survey you want to start filling out, and it will take you to that survey. Once you have entered all the information for the survey, either save the survey as draft or mark as complete (see the “Saving Changes” section of these instructions for explanations of these options to ensure you do not lock a survey before you are ready). Once saved, the page will then redirect back to the top and below the dark green bar you can click “<- WORKSPACE” to go back to the list of surveys.

Another option is to open each survey in a new tab to keep your workspace in one tab and fill out the surveys in a second tab. To open in a new tab, right click on the “New” or “Draft” box next to that survey and choose “Open Link in New Tab” from the pop-up menu. The new tab will appear at the top of the screen. This will open a new tab with that survey where you can fill it out, save it and then exit that tab to come back to the list of surveys to move on to the next one.

[Saving Surveys](#)

2021 Update: The save function has moved and is no longer at the bottom of the webpage. The save function is now a bar that is always at the bottom of your screen (see image below). Instead of having a drop down of options with the save button, the save options will now populate in a pop-up box that appears after you click save.

Re-TRAC Landfill Instruction Guide

Section 1 - General Facility Information

MANAGE ONLY

Secondary ID

Facility Name: *

Test

Is this facility government owned? *

Yes

No

Ohio EPA District: *

Central District Office

Date Closure Certification was Submitted: *

11/10/2021

Address of the Physical Location of the Facility: *

50 W Town Street

County *

Surveys should *only* be saved as “Mark Complete” once the data on that page has been verified as complete and correct. Once a page is marked “Mark Complete” you will not be able to go back and edit that page without requesting for it to be unlocked by Ohio EPA.

Where you are in the process will determine how you save the survey:

- Save Draft - Save the survey as a draft if you are not done with it. Saving as a draft keeps your work, allows you to navigate away from the survey, and allows you to make changes later
- Mark Complete - Save the survey as complete only when you are sure you are done with it. Marking the survey as complete will lock it, and you will not be able to make changes (unless Ohio EPA unlocks the survey for you)

In each survey there are fields marked with a red asterisk (*). These fields are required fields and will need to be filled out to save that portion of the survey as “Mark Complete”. If fields are not filled out completely you will receive an error when trying to save and a box will pop up letting you know how many errors there are on the current survey, highlight them all and allow you to go back to fill them in. If you are not ready to complete all fields, you can choose to save the survey as a draft and return to complete the report later.

Closed Landfill Survey

This survey includes all the information that was originally in the Annual Report except the signature. You will need the following information for this survey: Facility Information, Person Completing this Report, Facility Contact Information, Facility Emergency Contact Information, Operational Status, Facility Access, and Measuring Waste Receipts.

[General Facility Information - Section 1](#)

2021 Update: Some contact information fields will be prefilled with the previous year’s information. Please check this information over and make any changes that are necessary. You will see a “Secondary ID” field at the top of the survey that is in an orange/gold box and the entry field is grayed out. This field is for Ohio EPA to complete, and you can skip over it as you complete the report, it will not affect saving your report.

Re-TRAC Landfill Instruction Guide

You will need the following information for this section: Facility Information, Person Completing this Report, Facility Contact Information, Facility Emergency Contact Information. Some of the contact information may populate from the previous year's report, if changes are needed you can make changes to that information.

[Activities Occurring Near the Facility - Section 2](#)

Please answer the required questions and complete a detailed description of activities if "Yes" is chosen for any of the options.

[Facility Conditions Summary - Section 3](#)

Please review the text for the requirements needed for the second required attachment at the bottom of the page.

[Leachate Management - Section 4](#)

Use the first table to report monthly totals of leachate sent for disposal. Complete the second table with the disposal or treatment facility information; if more space is needed, click the "+add" option at the bottom left of the table to add more rows. Answer the two questions following the table. Please note: If you do not have a leachate management system, select "No" to question "Was the leachate management system tested for clogging or damage during the 2020 reporting year?". Once you select "No", a box pops up asking for an explanation; Type "No Leachate Management System." into that box. Also answer "No" for "Have you recirculated leachate during the reporting year?"

	NAME OF DISPOSAL OR TREATMENT FACILITY AND STATE WHERE IT IS LOCATED.	VOLUME OF LEACHATE SENT FOR DISPOSAL OR TREATMENT - GALLONS PER YEAR	
1	<input type="text"/>	<input type="text"/>	 REMOVE
 ADD 			

[Leachate Testing Results - Section 5](#)

This is a placeholder where the previous testing results were listed in the annual report. There is a button at the bottom of this page for uploading leachate testing results. Continue to Section 6 Financial Assurance.

[Financial Assurance - Section 6](#)

2021 Update: We added two data entry points at the bottom of this survey. Please fill in the Post-Closure Cost Estimate and Groundwater Corrective Measures Financial Assurance Estimate (if applicable).

This survey includes a checklist that addresses several common errors and omissions with financial assurance. Please review the questions and answer accordingly, these questions apply to the financial assurance instrument that was submitted on your instruments' anniversary date.

[Additional monitoring Required for Scrap Tire Monofills Only - Section 7](#)

For Scrap Tire Monofills Only: Please review the text provided and attach any documentation required at the bottom of the page.

[File Attachments](#)

At the bottom of the survey there will be several upload boxes available. When you are ready, click the "Upload file" button to choose the file you want to upload. Once chosen, a green status box will appear and when upload is complete you will see the file name you uploaded in that box. Attach all the files that are required or that you are ready to attach and click "Save" at the bottom of your screen (see Saving Surveys instructions above).

Re-TRAC Landfill Instruction Guide

Certification Survey

A statement as described in OAC 3745-27-14(A)(9)(f) and OAC 3745-30-10(B)(8)(e), must be uploaded attesting to the fact that the information contained in this report is true and accurate. A link to a template for this statement is available on this page. If ready to upload the signed statement, click "Upload File" to select the file from your PC. Once the statement is uploaded, you can click "Save" and mark the survey as complete. Once both surveys are listed as "Completed", your report is considered complete and submitted to Ohio EPA.

Annual Report Submittal

When you have completed all surveys, ensured all information is correct and are ready to submit your Annual Report to Ohio EPA, go back and ensure all surveys are saved as "Completed". All surveys saved as "Completed" are submitted to the program for review and the annual report is not complete without all of the surveys submitted, so please ensure all surveys (even if there is no information in them) are saved as "Completed".

Export Annual Report to PDF

To create a pdf of your annual report, click on "analytics" on the top bar of the screen. Once on that screen, select "Ohio EPA Member Response Report". If you'd like to print the current year's report after it is completed, choose the year, and click "Generate". This will create a preview of the printed report in your browser. If you're ready to print/save, click "export PDF report" and that will create and download a pdf of that year's report.

Contact

If you need assistance using the Re-TRAC system, contact Cassie Schramm at Cassandra.Schramm@epa.ohio.gov.

If you need assistance with Annual Operational Report questions, contact Holly Hillyer at Holly.Hillyer@epa.ohio.gov.
