

Q&A Report: Maumee Watershed Nutrient TMDL Project

Webinar ID 735-475-523	Actual Start Date/Time 01/20/2022 02:56 PM EST	# Registered 96	# Attended 78	Questions Asked (#) 29
----------------------------------	--	---------------------------	-------------------------	----------------------------------

Q&A

Last Name	First Name	Question Asked
Bihn	Sandy	If a CAFO has an NPDES permit, will the CAFO be considered a point source with the other point sources? dissolved as a source?
Bihn	Sandy	
Bihn	Sandy	So ecoli is not considered in the impairment for recreation
Gerwin	Kari	I can't hear Tiffany. Is it just me?
Gerwin	Kari	As the agency seeks input for a draft implementation strategy, are there plans to convene cross-sector working groups to facilitate discussion between and among NPS dischargers regulated under ODAs CAFF permit?
Gerwin	Kari	
Gerwin	Kari	Thank you!
Hess	Peter	I would like to view the questions from others. Maybe they would like to see my questions too. Would you agree to post all of the questions submitted during this webinar? Peter Hess
Hess	Peter	Looking at the TMDL timeline, I did not see any mention of a when the WIP will be released/issued. How does the DAP2020 fit into the WIP? Peter Hess
Hess	Peter	Good job Josh!
Hess	Peter	During the last webinar at the 53:30-mark, Josh inferred the regular lagoon releases to protect freeboard integrity (from permitted/nonpermitted AFO/CAFO) will be treated as a Great Tiffany.
Hess	Peter	
Hess	Peter	Who is now talking?
Hess	Peter	Thanks. Thanks
Hess	Peter	
Hess	Peter	Please share with us how will the plan account for changing climatology? The recent rains have serious effected the planting of cover crops for the upcoming season. Please share
Hess	Peter	Will the WIP explain to us why many of the workable provisions contained in the Chesapeake Bay Plan are not being included into the Ohio Plan, even as backstop
Hess	Peter	Good answer, thanks. Glad to hear that more measures are on the table.
Hess	Peter	Kirk and Josh. People in Sandusky and Ottawa Counties have noticed manure distribution on fields during the nighttime. They are saying the distribution is waste disposal rather than
Kotz	Charles	While this long process is underway, is there any consideration of freezing additional CAFO's in the Maumee watershed? Why do you keep adding more and more animals to
Kotz	Charles	Will you be looking at pathogens that are being discharged from animal manure, such as E. coli?
Kotz	Charles	while you are in the drafting process, you will be chasing a moving target regarding data if more CAFO's are approved.
Krause	Erica	Has the webinar concluded?
Krause	Erica	I logged out and logged back in and the sound is back!
Krause	Erica	Who will be included in the stake holder meetings?
Merritt	Kirk	Sorry I don't mean to have my hand up
Toot-Levy	Elizabeth	the impression that the NPDES permitted ones were 0 discharge.
Weber	Janean	Will you be circulating a copy of this PowerPoint? Thanks
Weber	Janean	The Clean Water Act deems CAFOs point sources if they discharge or propose to discharge, and that's the case for CAFOs that apply liquid waste on tiled fields (and/or apply
